

H&L® TOOTH COMPANY *Vertical-Pin* TOOTH SYSTEMS

H&L Teeth are **UNIFORGED®** in the USA from high silicon Chromium-Moly-Nickel alloy steels, enhancing *durability and long life!*

SP style... Flexhol 546SP and Hammerless 646SP

Sharp Penetrating Tooth
Centerline general purpose tooth for general duty mining applications. Paneled design for penetration.

RXH style... Flexhol 546RXH and Hammerless 646RXH

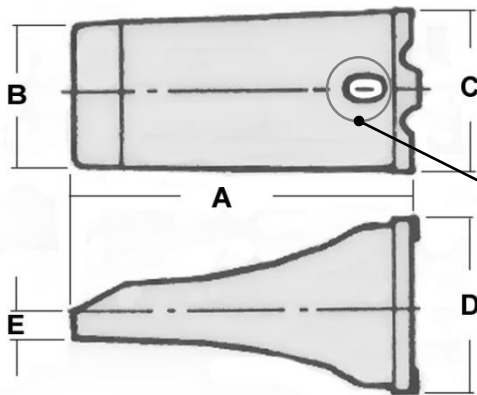

Rock Extra Heavy Tooth
Heavier tooth design for severe duty front end loaders and shovels. Provides greater wear material for enhanced life.

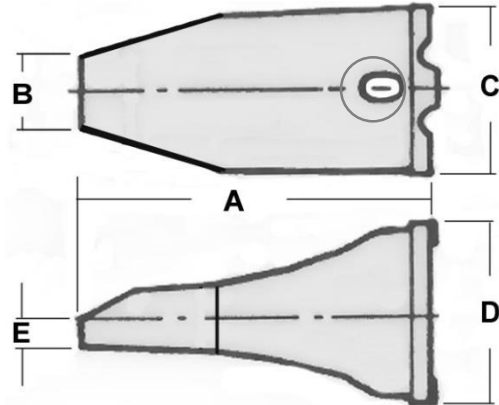

RPS style... Flexhol 546RPS and Hammerless 646RPS

Rock Penetrating Star Tooth
Provides high wear material and is paneled for self-sharpening. Narrow tooth width provides greater penetration.
