© H&L Tooth Company 2015

H&L's Caterpillar Style G-163-HW-3/4 Scarifiers are produced from aircraft quality Chrom-Moly grade alloy steels to enhance shank **DURABILITY and TOUGHNESS!**

H&L Tooth Company History since 1931:

This Scarifier ripping shank was designed and first introduced in 1945 as for a Adam's Motor Grader, Model 51. The G-163 Series Scarifier has over sixty-60 different designs in length, notches or holes.

H&L's 3/4-Series Crimp-on Teeth (see T021.2015) were first developed to fit the small Model 16 Adam's Road Maintainer.

Today, H&L continues to produce the "Original" G-163-HW-3/4 Shank and 1 3/4SP tooth marking 70 years of QUALITY GET Designs.
