The "OEM" fabrication Flexpin tooth design

22SP

Sharp Penetration
3.4#/1.54kgs.

H&L Tooth Company History since 1931:

This fabricated ripping tooth was first designed and introduced in 1954. H&L's Flexpin Tooth system was first developed for an upgrade to the Austin Grader, before becoming standard on many models during the 1950s and 60s. Today, copies of the 22SP tooth are being produced by many companies worldwide, if it doesn't say H&L its not the ORIGINAL!
