Ripping Sharp Penetration Tooth

15.0#/6.81kgs.

H&L Tooth Company History since 1931:

This large sized ripping tooth was first designed and introduced in 1968.

H&L's Sharp Penetration ripping Tooth was developed and forged at the Hi-Pro Forge Plant, a Division of the H&L Tooth Company in Montebello, California. The Tooth was originally designed to fit several small Allis-Chalmers Models and compete with Ateco Products.
