272ST

Star Penetration Tooth

9.3#/4.21kgs.

H&L Tooth Company History since 1931:

This medium sized digging tooth was first designed and introduced in 1971.

H&L's Star Penetration Tooth was developed and forged at the Hi-Pro Forge Plant, a Division of the H&L Tooth Company in Montebello, California. The Forged 272ST Tooth was originally designed as an upgrade to the fabricated 27 Pick Style tooth from the early 1960s.
