Sharp Penetration Tooth

11.0#/5.01kgs.

H&L Tooth Company History since 1931:

This medium sized digging tooth was first designed and introduced in 1970. H&L's Sharp Penetration Tooth was developed and forged at the Hi-Pro Forge Plant, a Division of the H&L Tooth Company in Montebello, California. The Forged 20SP Tooth was originally designed for Wheel Loaders of the day, like the Michigan 175.
