The "OEM" fabrication Flexpin tooth design

24SP

Sharp Penetration
3.3#/1.50kgs.

*H&L Tooth Company History since 1931:
This fabricated 24SP regular style tooth was first designed and introduced around 1950. H&L's 24 Flexpin type Tooth was first developed as an upgrade version for a Hancock Scraper and Clark Loader using the 23-Series.
Today, CAST copies of the 24SP fabricated tooth is being produced by many companies worldwide, if it doesn't say H&L its not the ORIGINAL!. H&L also offers a cast and forged 24-Series tooth.*
