Sharp Penetration
2.6#/1.18kgs.

H&L Tooth Company History since 1931:

This Uniforged 230SP regular style tooth was first designed and introduced around 1966. This forged Tooth was developed as a heavy duty version of the 23SP fabricated tooth. By the middle of the 1970s, H&L's 230SP tooth had proven to be the #1 OEM Backhoe tooth in the World. Today, copies of the 230SP tooth are being produced by many companies worldwide, if it doesn't say H&L its not the ORIGINAL!
