230CTT

Centerline Twin Tiger Penetration

2.8#/1.27kgs.

H&L Tooth Company History since 1931:

This Uniforged 230CTT Centerline Twin Tiger tooth was first designed and introduced in 1996. The forged Centerline Twin Tiger was developed as a heavier version of the Twin Tiger 230TT tooth, if it doesn't say H&L its not the ORIGINAL!.
