Shock Absorbing Remover Tools

Vertical Flexpin "VP" Series

H&L Tooth Company History since 1931:

In the early 1980s H&L developed a new patented tooth system known as the VP-Series. Tooth sizes were designed to replace the aging horizontal (H&L 20-31-32 and 33 Flexpin) style attachments used by many OEMs of the day.

For a complete review of VP series and teeth see HL-3-90 Catalog on our webpage under H&L Originals... VP.
