H&L Tooth Company History since 1931:

This double strap weld-on adapter was first designed and introduced by H&L Tooth for the John Deere Company in 1970.

H&L's 2740-FW-27 weld-on excavator adapter was developed as a heavy duty version of the 2740-FW-25 adapter.

Today, H&L continues to produce the "Original" 2740-FW-27 adapter and 252-Series tooth system.
