The "OEM" Bolt-on adapter design

**D-415-3C**

Trenching Wheel Bucket Adapter

5.0#/2.27kgs.

*H&L Tooth Company History since 1931:*

*The D-415-3C bolt-on trenching adapter was first designed and introduced in 1948. H&L's adapter was developed to fit the Buckeye and Cleveland Wheel Trenching Machines.*

*This adapter uses the small fabricated trenching tooth that was first designed and introduced in 1946.*

*Today, copies of the 3CH tooth are being produced by many companies worldwide, if it doesn't say H&L its not the ORIGINAL!*
