37	3.70"	3.38"	4.75"
47	4.40"	3.88"	5.40"

Patented by Esco Corporation

Esco's original Patents were issued in the early 1980s (4,335,532 and 4,404,760). The twist on tooth system has gone through many changes over the years. To name a few, Vertilok and Super-V, there are not interchangeability between the Esco tooth systems.
