

HI FORGED TEETH PRO

FOR INDUSTRIAL CONSTRUCTION EQUIPMENT

CATALOG:HP-1120
REVISION C

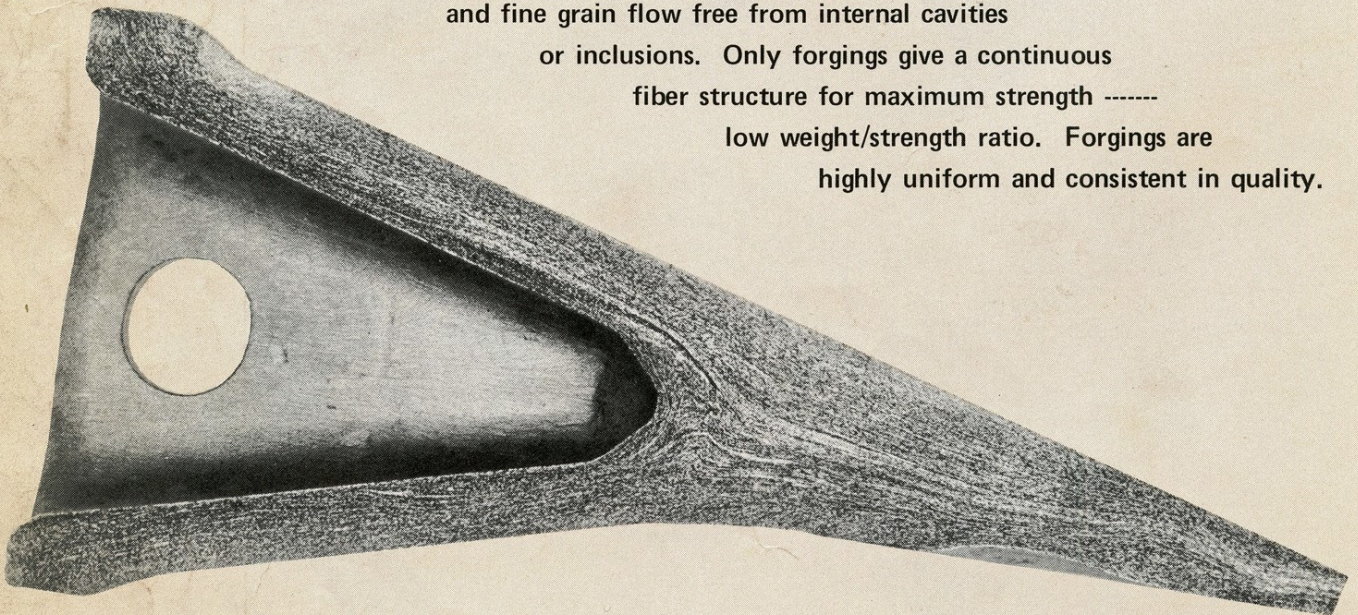

HI-PRO IS:

- a manufacturer of ground engaging products (teeth) with a proven and accomplished history.
- a team of highly skilled and dedicated people backed by the best manufacturing (forging and heat treating) capabilities in the industry.
- a worldwide dealer network to coordinate and service your everyday needs supported by our Hi-Pro Marketing Specialists.

HI-PRO PRODUCTS ARE:

- forged and endothermically heat treated for endurance, toughness and strength.
- interchangeable with industry type related products.

Forging produces a product of high density
and fine grain flow free from internal cavities
or inclusions. Only forgings give a continuous
fiber structure for maximum strength -----
low weight/strength ratio. Forgings are
highly uniform and consistent in quality.

*Forgings are widely used in industry where
reliability is a prime concern!*
