The "OEM" Cast Flexpin tooth design

240CF

Cast Flared (Wide)

4.1#/1.6 kgs.

H&L Tooth Company History since 1931:

This cast 240CF Flared style tooth is an exact copy of H&L's original 24HW fabricated tooth that was first designed and introduced around 1956. H&L's 24-series Flexpin type Tooth was first developed as an upgrade version for a Hancock Scraper and Clark Loader using the 23-Series.

Today, CAST copies of the 240CF Cast tooth is being produced by many companies worldwide. H&L also offers a fabricated and forged 24/240-Series tooth.
