The "OEM" Cast Flexpin tooth design

**240CHF**

Cast Heavy Flared (Wide)

5.0#/2.3 kgs.

*H&L Tooth Company History since 1931:*

*This cast 240CHF Heavy Flared style tooth is a heavier version of H&L's original 24HW fabricated tooth that was first designed and introduced around 1956. H&L's 24-series Flexpin type Tooth was first developed as an upgrade version for a Hancock Scraper and Clark Loader using the 23-Series.*

*Today, CAST copies of the 240CHF Cast tooth is being produced by many companies worldwide. H&L also offers a fabricated and forged 24/240-Series tooth.*
