H&L Tooth Company History since 1931:

This CF-30S Sharp style tooth was introduced by the Hi-Pro Forge Company in 1981 as a forging. During the 2000s H&L redesigned the CF-30S and now offers it as a cast version C-30S.

Today, copies of the Conical "C and CF" 30S style teeth are being produced by many companies worldwide.
